# Alice German

*Junior Software Developer | B.Sc. Computer Science*

nat4nat4nat@gmail.com 052-5097766 Petach Tikva linkedin.com/in/alice-german-dev
github.com/AliceGe4

## WORK EXPERIENCE

**Teaching Assistant – Mathematics** 02/2021 – 02/2026
*Private*
Skills:
- Assisted students in understanding mathematical concepts
- Provided one-on-one guidance and problem-solving support
- Developed clear explanations for complex topics

## EDUCATION

**B.Sc. Computer Science (BCS)** 02/2022 – 2026
*The Open University of Israel*
Relevant Coursework:
- Data Structures
- Algorithms & Computational Models
- Object Oriented Programming (Java)
- Systems Programming Laboratory (C)
- Operating Systems
- Computer Networks
- Database Systems

## SKILLS

**Languages**
Java, Python, C, JavaScript

**Frameworks**
React (Next.js), Django

**Databases**
PostgreSQL, SQL

**Tools**
Git, Linux, VS Code

## LANGUAGES

**English**
5/5

**Hebrew**
4/5

**Russian**
4/5

## PROJECTS

**Recipme – Full Stack Web Application** 11/2025 – 03/2026
- Developed a full-stack web application using React (Next.js), Django, and PostgreSQL
- Designed and managed relational database
- Implemented REST APIs and integrated external nutritional data
- Collaborated in a team and presented the project
- Designed and implemented full-stack architecture from frontend to database
- Technologies: React (Next.js), Django, PostgreSQL, REST APIs
- GitHub: https://github.com/JonathanHaish/Recipme
- Demo: https://www.youtube.com/watch?v=uo6aBf_Cb6c

**Assembler Project** 11/2022 – 03/2023
- Developed a full assembler in C for a custom CPU architecture
- Implemented macro processing (pre-assembler stage)
- Built a two-pass assembler (symbol table construction + code generation)
- Translated assembly code into binary machine code
- Implemented multiple addressing methods and instruction encoding

- Handled labels, external/entry symbols, and error detection
- Technologies: C, Linux, GCC, VS Code
- GitHub: https://github.com/AliceGe4/assembler-project
